COME WITH US THROUGH WILSON

We, the members of the 1952 Annual Staff, again say, "Welcome," to our faithful Henry, the Hornet. For the third year, Henry will guide each of you through the pages of our yearbook. For those of you who have never met Henry, we would like for you to know that he is our little invisible friend who never misses an activity or class at Wilson. He is popular with both students and faculty. His supply of energy is unlimited and he excels in school spirit as he can always be found on the front seat of every performance or Johnny-on-the-spot at all social functions.

In September, the first arrival at school on opening day was Henry. He was the first to welcome the seventeen new faculty members and make them feel at home. He was glad to see such attractive new faces on the job but he felt a bit of regret that those he had learned were his friends last year had not returned.

When the new library Club was organized, Henry faithfully assisted Miss Hupman as sponsor of the group but he didn't neglect his duty to the other clubs.

Parties, dances and sport events have kept him on the run. No one was happier than Henry when Wilson defeated Lee Hi in football for the first time. Other victories over Waynesboro and Harrisonburg so excited our little friend that he was still floating in the clouds when basketball season rolled around. That too kept him quite busy as he had his eye on a tournament berth.

Weddings have been an important part of Henry's social life this year. Early in the year Miss Shiflet became the bride of Mr. Nichols, who taught at Wilson last year. For days Henry waited the moment when Mr. McChesney and Miss Rhea would be married. (He had this wedding in mind for three years). When December sixth rolled around, Henry occupied a front seat in the church at Craigsville to see the knot firmly tied and he was practically the happiest person there as both Mr. and Mrs. McChesney were two of his favorite people.

Yes, it has been a busy year for our little friend. Behind the scenes he had kept in contact with every member of the faculty and most of the thirteen hundred students. I would say this is a full time job and we can easily understand why his waistline is now slimmer and why he is the proud possessor of those very shapely legs.

We could think of no better way to introduce you to our school and life here than to ask Henry to act as guide to you throughout the following pages. Therefore, we hope you will enjoy your companion and your trip through the happy school life which is ours at Wilson Memorial.

DEDICATED

to

ROBERT A. McCHESNEY

Principal of Wilson Memorial High School

With great pride we, the members of the annual staff, dedicate this 1952 volume of the HORNET'S NEST to our beloved principal and friend, Mr. Robert A. McChesney.

For the past five years, winter and summer, Mr. McChesney has unselfishly and willingly given his time and efforts to the development and improvement of Wilson Memorial High School and its curriculum, thinking always of the welfare and good of us students.

He attended Augusta County schools and graduated from Hampden-Sydney, later receiving his Master of Education degree from the College of William and Mary. All of his teaching experience has been in Augusta County, as he began his career as principal at Towers later becoming a classroom teacher at North River. The principalship of Churchville and later Fishersville Schools were his next jobs before he was chosen to serve as first principal of Wilson Memorial High School when it was organized in 1947.

It has been our privilege to not only have him direct our school but to know him as a real person and friend to all. His kindness and understanding have made many of the mountains facing us but 'mole hills' and given us the incentive to continue in spite of our discouragements.

With pleasure we respectfully dedicate the 1952 HORNET'S NEST in recognition of his long and faithful service to Wilson and Augusta County schools to our beloved principal, Mr. R. A. McChesney.

Our School Songs and Yells

ONWARD WILSON

It's onward Wilson! It's onward Wilson!
Hold high your banner, green and white!
Keep fighting Wilson; keep fighting Wilson!
We sing our song for you tonight! (Rah! Rah!)
We're all behind you, we're rootin' for you;
Your loyal team will surely try!
Their best is for you; they'll carry you through!
So, onward Wilson, Wilson High!

We've got the spirit, the real school spirit—
We're all for one and one for all.
We'll stick together, no matter whether
The skies are blue or raindrops fall.
A thousand voices give out in chorus
Your dear name echoes through the sky—
We'll keep it ringing, We'll keep on singing
So, onward Wilson, Wilson High!

WILSON ALMA MATER

Wilson, your portals, swing wide to let us in,
One out of many, we all shall be,
Wilson, your greatness, lies within us ourselves,
Yours is the spark that kindles loyalty.

Wilson your spirit, always is with us,
Urging us onward, our fears to quell.
Wilson, we sing to you this Hail, and Farewell.
Hail and Farewell!

IS EVERYBODY HAPPY?

Is everybody happy?

Well yes!

Is anybody blue?

Well no!

Well, if everybody's happy
and nobody's blue

15 rahs for the Hornet crew!

Hey rah, rah, rah rah rah
Hey rah, rah, rah rah rah
Hey rah, rah, rah rah rah
Hey! team, team, team!

TEAM

With a T, with an E, with a loud AM,
With a T, with an E, with a loud AM,
With a big T-E and a loud A-M,
T-E-A-M Yea Team!

JUMP ON THE GRANDSTAND

Jump on the grandstand
Beat on the tin can
Who can? We can!
Nobody else can!
Zip, boom—Zip boom bah,
Wilson, Wilson, Rah, Rah, Rah!

SHOUT STUDENTS SHOUT!

There's a reason for a coach,
There's a reason for a team,
There's a reason for you to build up some steam.
There's a reason to buy,
An there's a reason to sell,
But there ain't no reason why we can't yell!

So

Shout students, shout—Hallelujah,
Shout students, shout—Hallelujah,
Shout students, shout—Hallelujah,
Let's tell that team what it's all about. Shout!

STRAWBERRY SHORTCAKE

Strawberry shortcake, Huckleberry pie,
V—I—C—T—O—R—Y
That's the way you spell it,
Here's the way you yell it—
Victory, Victory for Wilson High.

Our Life History

Well, we made it! Back in the grades when we heard we would be going to Wilson Memorial, we were wondering what it would be like and we were a little scared too.

Then the day arrived when we got the word, "All freshmen report to the gym". That was a big day. We were assigned to homerooms and got a glance at those long corridors and our teachers. But in spite of the fact that we were scared, we began to make new friends and have a grand time. Do all of you remember our freshmen picnic?

That wonderful year finally ended and after enjoying our summer vacation we reported back to the gym as 'Know-it-all sophomores'. Activities became more popular with us and we looked forward to another year of fun squeezed in between all those hard old lessons.

By the time our junior year arrived, Wilson surely seemed a nice place. Our biggest dream was *The Prom* which was a very delightful affair and one to long be remembered by us. We were just a little cocky at the end of the year because we were going to be the important people around Wilson the next year.

Seniors, at last! The year which we have looked forward to since we were in the first grade and now it is passing like it had wings. Honors and good times seem to have followed us and this year has been no exception. We feel that we have been very fortunate in having Mr. McChesney and Mr. DeHaven as our leaders. They have been sympathetic and understanding in all matters and had it not been for their help we feel that our four years at Wilson would not be such a wonderful experience. We would also like to take this opportunity to say to the senior sponsors that we think you have been grand to us. You have been good sports and have shown a sense of humor at times when we became rather trying which made the road easier for all of us. You have helped to build up our store of dreams which we can take into "the cruel old world" with us. Farewell, but don't forget us.

Junior Class History

My! Can you believe it? Only one short year and we Jolly Juniors will have earned that coveted title of "Dignified Seniors?" For some it will be a happy day, and for others—well, they'll be thinking about all the fun of the past years and wishing they could stay at Wilson a little longer.

Sometimes you hear the phrase, "Oh! It was OK being a freshman, nice to be a sophomore, but it's simply great to be a junior. No doubt there would be about four hundred others who would agree with this statement.

It seems that every year we students return to Wilson, there's a bigger and better schedule planned for us. This year of 1951-52 seems to hold much in store. Already we have had a very successful football season and prospects for the same in basketball. Several dances have been held and many more planned, so don't worry, Junior, you'll get your chance; for instance, the Junior-Senior Prom.

The Junior class elected five officers: President, Joe Hemp; Vice President, Henry Marks; Secretary, Phyllis Surratt; Treasurer, S. E. Zirk; and Reporter, Max Miller.

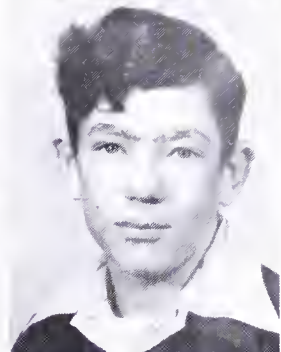

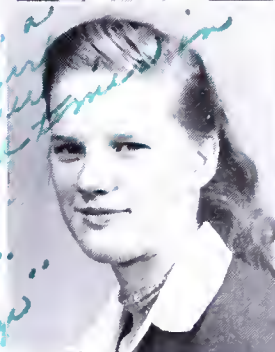

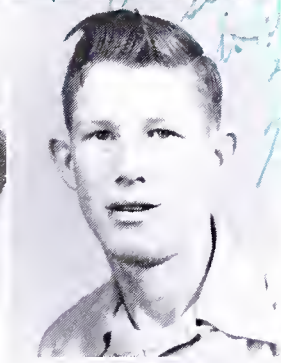

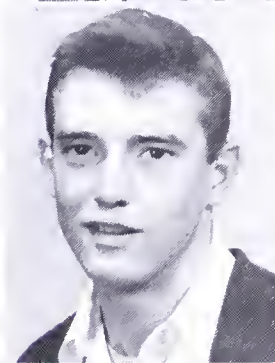

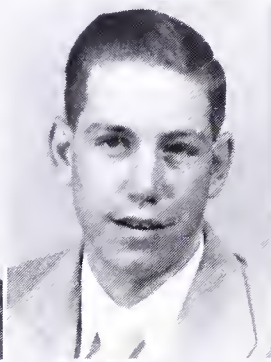

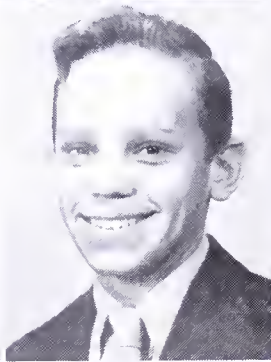

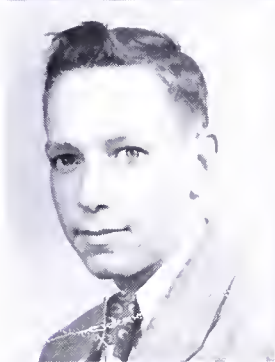

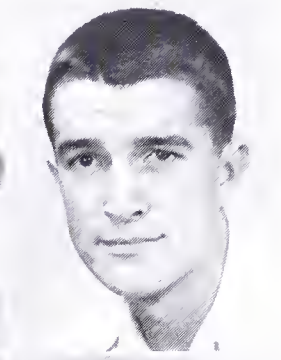

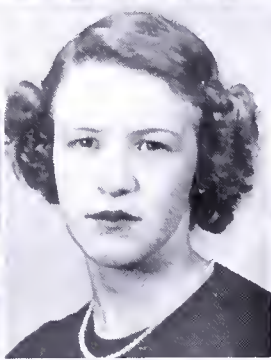

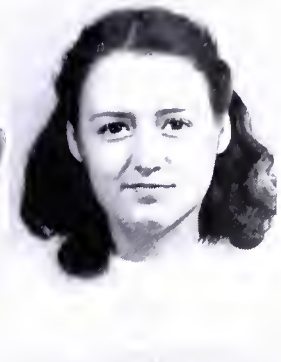

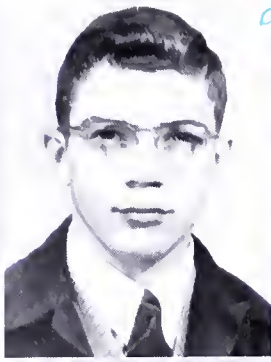

Several assemblies were held, and many more activities helped make a most enjoyable year.

We Jolly Juniors are looking forward to our return next year—*SENIORS!*

Sophomore Class History

On September 5, 376 world weary students drooped into Wilson. We returned to find ourselves no longer "Green Freshmen" but "Sophisticated Sophomores", or at least the majority of us did. We assembled in the gym to find the room in which we would spend most of our time and to find which "lucky" teacher would get us.

We soon buckled down to the serious business of getting an education. New courses, new rooms, new teachers—but we soon knew all the tricks and shortcuts.

Along with the hard work, however, we had our pleasures. We enjoyed several dances during the year and the pep rallies were loads of fun for all. Many of our class members were on the teams for which the rest of us hollered.

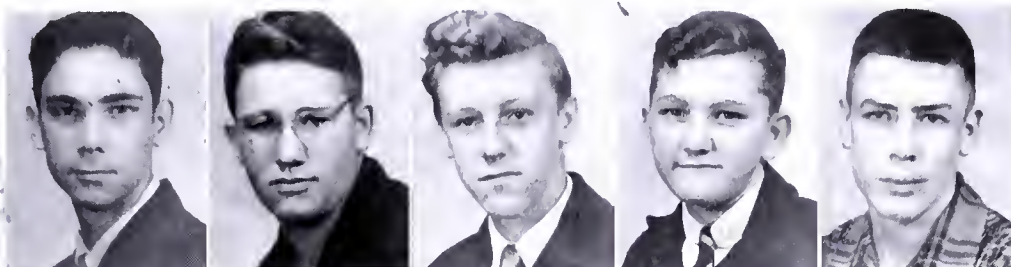

Soon after school started we had an assembly to elect class officers. During the year we have had other assemblies, ranging from plays by the homerooms of our class to talks by local ministers.

We have had fun at Wilson with our parties, dances and pep rallies and with our fellow students. But, most important of all is the education which we have received during the hours spent in the classrooms.

Freshman Class History

On September 9, 1951 there were 400 students that entered Wilson from the surrounding schools, Beverly Manor, Fishersville, New Hope, Stuarts Draft, Greenville, Crimora, and Middlebrook.

The first day of school was rather frightening to most of us. However with the help of our teachers and Mr. McChesney we soon felt at ease.

The days went fast for we were enjoying learning Wilson corridors and classes. Then came a very exciting football game with Buena Vista. Since the score was a tie we Freshmen yelled ourselves hoarse.

Another exciting day in our school year was the Christmas program. Several Freshmen participated in this large general assembly program. Remember the sleepy little boy!—Jimmy Cason?

By this time we were veteran Wilsonites, and we are looking forward to three more exciting years at Wilson.

Our classroom sponsors who have been helpful to us are:

ACTIVITIES

The Hornet's Nest Staff

THE HORNET'S NEST Staff is composed of thirty-four members coming from all four of the classes in school. Each department is headed by a Senior who has underclassmen assistants. The staff meets during activity period four days a week until February when the book has been completed and sent to press.

One of the things every staff member looks forward to is the soliciting of ads in Waynesboro and Staunton during October. In this way we personally meet our friends and advertisers who have, through their cooperation and interest, helped make this book possible. Another highlight is the banquet which is held in the spring. All members of the staff and their guests are invited to enjoy this evening of rest, fun and eats. Much of the work during the year is tiresome routine—but the good spirit and fellowship enjoyed among the staff members make it all worthwhile. The ambition of most students in school is to be chosen an editor of some department when the staff is chosen in the early spring months, so they may be ready for work in the fall.

It has been no easy task to prepare an annual of this size but, we have enjoyed it and expect to enjoy reading it in the years to come. We owe our success to the cooperation of the staff members, the student body, the faculty, our advertisers and to Mrs. Subblette, our sponsor.

The Student Council of Wilson Memorial High

The most important organization at Wilson Memorial is the student governing body, the Student Council. All members of this organization are elected by the students to represent each homeroom and club in school. The four class presidents also serve on the Council.

This group meets each Tuesday to discuss problems concerning school organizations, finances, care of property, and standards of conduct.

Early this year the Student Council issued identification cards to all Wilson students for the purpose of easier identification at school activities. Other Student Council activities were the supervision of the store, planning general assemblies, publication of the handbook, and dances at which alumni were welcome. The Council also authorized the formation of a new Library Club.

Mr. DeHaven and Mr. McChesney are sponsors of this group of student leaders.

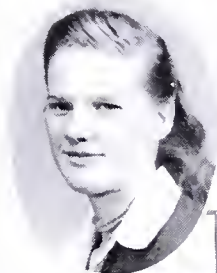

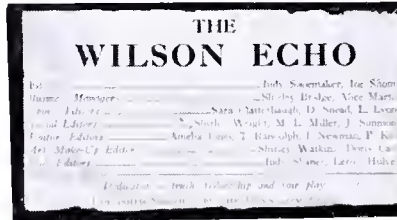

In the spring of 1951, five officers were elected by the entire student body to serve for this year. In the fall the Reporter was chosen from the membership of the Journalism class.

Officers who have served this year are:

SARAH VARNER	<i>President</i>
ELIZABETH WAMPLER	<i>First Vice President</i>
HENRY MARKS	<i>Second Vice President</i>
PHYLLIS SURRATT	<i>Secretary</i>

Future Homemakers of America

THE WILSON CHAPTER

One hundred girls make up the Wilson Memorial chapter of the Future Homemakers of America. Meetings are held twice each month.

This year the girls observed National F.H.A. Week with daily activities. The "Sadie Hawkins" dance and a formal spring dance were sponsored by the F.H.A. Among other projects, the club sponsored a school-wide clean-up campaign.

The local club is affiliated with the federation, state and national organization. The motto is "TOWARD NEW HORIZONS", the flower is the red rose, and the colors are red and white.

Miss Dolly Dedrick and Miss Van Sickle, two new teachers and Miss Mildred Alley and Mrs. Jessie Shomo are the club sponsors.

Officers for this year are: Jo Ann Smith, President, Kathleen Meyerhoeffer, Vice-President, Sue Batson, Secretary, Mae Fleming, Treasurer, Norma Perry, Historian, Mary Bell Shuey, Reporter and Sarah Varner, Student Advisor.

Wilson Memorial Chapter Membership.....125

The Future Farmers of America is a non-profit, non-political farm youth organization of voluntary membership, designed to take its place along with other agencies striving for development of leadership, the building of a more permanent agriculture, and the improvement of country life. It constitutes one of the most efficient agricultural teaching devices that has been discovered up to the present time. The F.F.A. is 100% American in its ideals and outlook and has no outside affiliations. There is no secrecy in connection with any of its activities.

Beta Club

The officers for the Beta Club for the year 1951-52 are:

ROSCOE EPPERLEY*President*
 JOE WHITESELL*Vice President*
 VIRGINIA WOMBLE*Secretary-Treasurer*
 JACK GRAHAM*Reporter*
 VIRGINIA WILSON*Second Reporter*
 MRS. THERESA LUTZ*Sponsor*
 MRS. BAYLOR NICHOLS*Sponsor*
 MISS CHARLOTTE LEONARD*Sponsor*

The Beta Club membership is determined by scholarship, character, achievement and commendable attitude.

The purpose of the club is to develop a high honorary scholastic organization which will lead to the improvement of all other organizations of this school.

The club plans to have a large representation, and to present a skit at the convention held this year in Richmond.

We also plan to present a hobby-talent show in the late spring.

This year the club took in forty nine new members and with support of every old member we hope to continue to live up to our motto, "DUCAMUS ALIIS SERVIENDO" OR "LET US LEAD BY SERVING OTHERS".

Wilson Chapter of The Junior Red Cross

The Junior Red Cross Club is an organization that was started in our school last year. It is composed of boys and girls who do not have more than one activity in our school. There are about 42 members in the club this year. The club emphasizes the making of various things for the National Junior Red Cross, proper procedure in conducting meetings, and recreation for its members. The boys in the club have made a number of ash trays, smoking stands, checkerboards and lapboards for the JRC and the girls have made scuff slippers, card table covers, memo pads, scrapbooks and a number of other items. These will be distributed by the JRC to veterans hospitals, children's hospitals, etc. Another major objective of the Junior Red Cross Club is the filling of 40 gift boxes each year to be sent to underprivileged children overseas.

F. T. A. Club

(Future Teachers of America)

The FTA Club at Wilson Memorial is prevocational and explanatory in nature. The FTA club seeks:

1—To encourage young people to cultivate in themselves the qualities of personality and character which are the foundations of successful teaching;

2—To acquaint young people with the story of the school, the part free schools have played in the development of our democratic way of life;

3—To provide young people with specific information in the various fields of education.

Furthermost among our activities is the day our selected members of the club go to the feeder schools to assist in teaching for the day.

The Spanish Club

PEGGY JONES	<i>President</i>
SHELVIA BAKER	<i>Vice-President</i>
MARGIE FITZGERALD	<i>Secretary and Treasurer</i>
SHIRLEY WRIGHT	<i>Reporter</i>
MRS. NICHOLS	<i>Advisor</i>

To be eligible for membership in the Spanish Club, a student must be enrolled in a Spanish Class or have completed two years of the language. Our meetings are held once each month. We hold our initiation of new members and social functions in cooperation with the Latin and French groups.

This year we have been able to secure films, filmstrips, magazines, songs, and books which have been valuable in helping us learn more about our Spanish speaking neighbors.

The Latin Club

This year in order to stimulate more interest in the Latin Club we became affiliated with the National Junior Classical League.

The club is made up of first and second year Latin students and those who have completed two years of the work.

Officers for the year 1951-52 are as follows:

VIRGINIA WOMBLE	<i>President</i>
MARY ANN LAW	<i>Vice President</i>
JOYCE HENDERSON	<i>Secretary</i>
BRANDON COLLINS	<i>Treasurer</i>
LARRY AREHART	<i>Reporter</i>
MRS. THERESA LUTZ	<i>Sponsor</i>

Among the many club projects for the year are: presenting a skit at an assembly program, making cards, finding Latin mottoes, and many more activities which help to make our study of Latin more interesting and meaningful.

The Junior Classical League meets bi-monthly and programs are planned to further acquaint us with Latin traditions and customs.

Wilson Chapters of The 4-H Club

GIRLS

MOTTO: "To Make the Best Better"

FLOWER—Four Leaf Clover

COLORS—Green and White

The girls 4-H Club of Wilson is made up of 26 members from all classes.

We meet the first and third Mondays of each month in the Home Economics Department. We have two projects during the school year. They are "Food for Pep" and "Clothing Construction". We also have a variety of projects during the summer months. Some of these are canning, room improvement, clothing construction and gardening.

Our leader and adviser is Mrs. Dorothy Stansberry.

In September the following officers were elected:

Ann Henkel <i>President</i>	Jackie Rhea <i>Treasurer</i>
Kathryn Harper <i>Vice President</i>	Eleanor Leach <i>Sgt. at arms</i>
Mae Grove <i>Secretary</i>	Charlotte Beard <i>Reporter</i>
Shirley Beard and Peggy Davis <i>Song Leaders</i>	

BOYS

There are 18 boys on roll this year. The attendance has been good thus far. We are hoping more boys will participate in the spring show held at Stanton each spring.

The 4-H livestock judging team consisting of Ray Weaver, Billy Custard, Larry Arehart, Billy Hiner and Nelson Grove was a successful one. This team placed above 5th everywhere it went the past year.

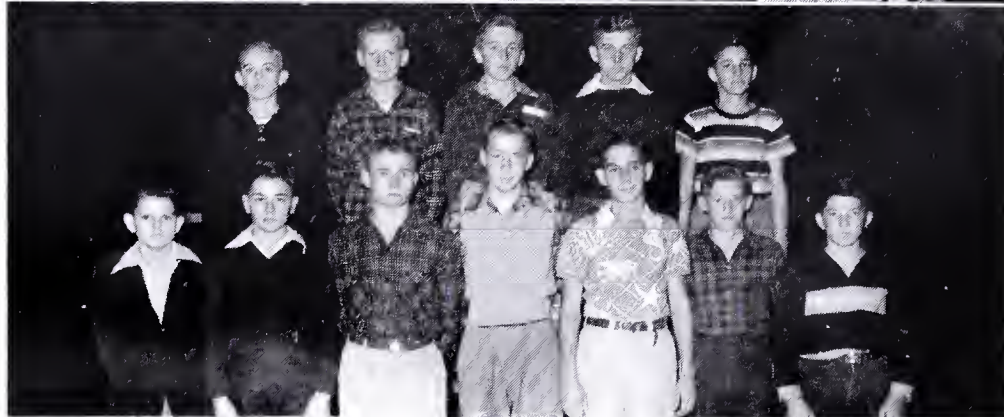

There are a number of contests going on in the club this year. They are a sheep flock contest, a pig club and a dairy club contest being carried on.

The boys in the tractor maintenance contest were Billy Hiner, S. E. Zirk and Billy Custard. S. E. Zirk won the county contest and second in the State contest and won a trip to Massachusetts.

The club officers for the year are:

Billy Custard <i>President</i>	Nelson Grove <i>Secretary and Treasurer</i>
Larry Arehart <i>Vice-President</i>	S. E. Zirk <i>Reporter</i>
Mr. Richard L. Coffey <i>Advisor</i>	

These officers are doing a fine job and we are looking forward to a very successful year for our 4-H Club.

The Safety Club

The Safety Club of Wilson Memorial meets on the third Thursday of each month in the conference room. Only boys who have been carefully chosen and proven their capability of operating busses in a safe and efficient manner are given the responsibility of transporting students to and from Wilson. These boys and their substitutes make up the greater part of the Safety Club.

The purpose of the regular monthly meetings is to present problems confronting the drivers, and to discuss policies of safe and efficient bus operation.

There are twenty-six (26) busses transporting students to and from Wilson—some from points in the county as far as Swoope, Greenville, Sherando, Harrison and McKinley.

Mechanical difficulties are quickly and efficiently taken care of by the personnel of the county garage, which is located on the Wilson grounds.

As in previous years, lists of students and time schedules are posted in all busses. These schedules are strictly adhered to by drivers and students know at what time to expect the busses.

In addition to operating the busses, bus drivers are active in patrolling at football games and other activities. The main objective of the Safety Club has been to make the entire student body at Wilson safety-conscious.

Officers: Joe Shomo, President; Joe Whitesell, Vice-President; Rudolph Shiflett, Secretary and Treasurer; James W. Berry, Advisor.

Wilson Chapter of Distributor's Club

The 1951-1952 Distributor's Club under the coordination of Miss Lothaine Barloga started off with a bang when their first meeting was held on September 21, 1951. There is a total of nineteen members and these members are enrolled in the retail training class where those interested in retailing as a career are brought together through various activities.

Distributive Education to most people does not mean anything but to the members of the D. E. Club it is a vital part of their everyday life. It is a form of vocational training for students interested in learning the techniques and methods used in retailing. Each student in this club has a job and in the club he learns how to cope with the everyday problems of each and every individual he sells to.

The high school club is affiliated with both the state and national organizations and the members take an active part in the organization as a whole.

The club this year is vitally interested in promoting good public relations throughout the community. They helped other clubs display their work as one of the club projects. They worked with the Industrial Arts class in connection with their plastic and leather materials. An Employer-Employee banquet was held in the spring with the D. E. Clubs of Lee High and Waynesboro. Many speakers from the retail field were guests of the club. A few social functions were held throughout the year and the club attended the Area D. E. Convention held in Waynesboro. The annual D. E. Convention was held in Richmond with one member selected by the club to represent them.

The officers are as follows:

LARRY LYONS	<i>President</i>
BILLY SURRETT	<i>Vice-President</i>
PEGGY SMILEY	<i>Secretary</i>
JO ANN SENSABAUGH	<i>Treasurer</i>
JOE WIMER	<i>Parliamentarian</i>
BARBARA HARLOW	<i>Promotional Editor</i>
JO ANN SENSABAUGH	<i>S. C. A. Representative</i>
MISS LOTHAIN BARLOGA	<i>Sponsor</i>

The Pep Club

With the Pep Club members, Wilson Memorial rates first on the list as being a wonderful school, and it strives to promote that spirit in all of the students. The Pep rallies, dances and programs sponsored by the Pep Club are designed with that purpose in mind.

The cheerleaders, also sponsored by the Pep Club, have done a grand job spurring the ball teams on to victory when the opposition was overwhelming.

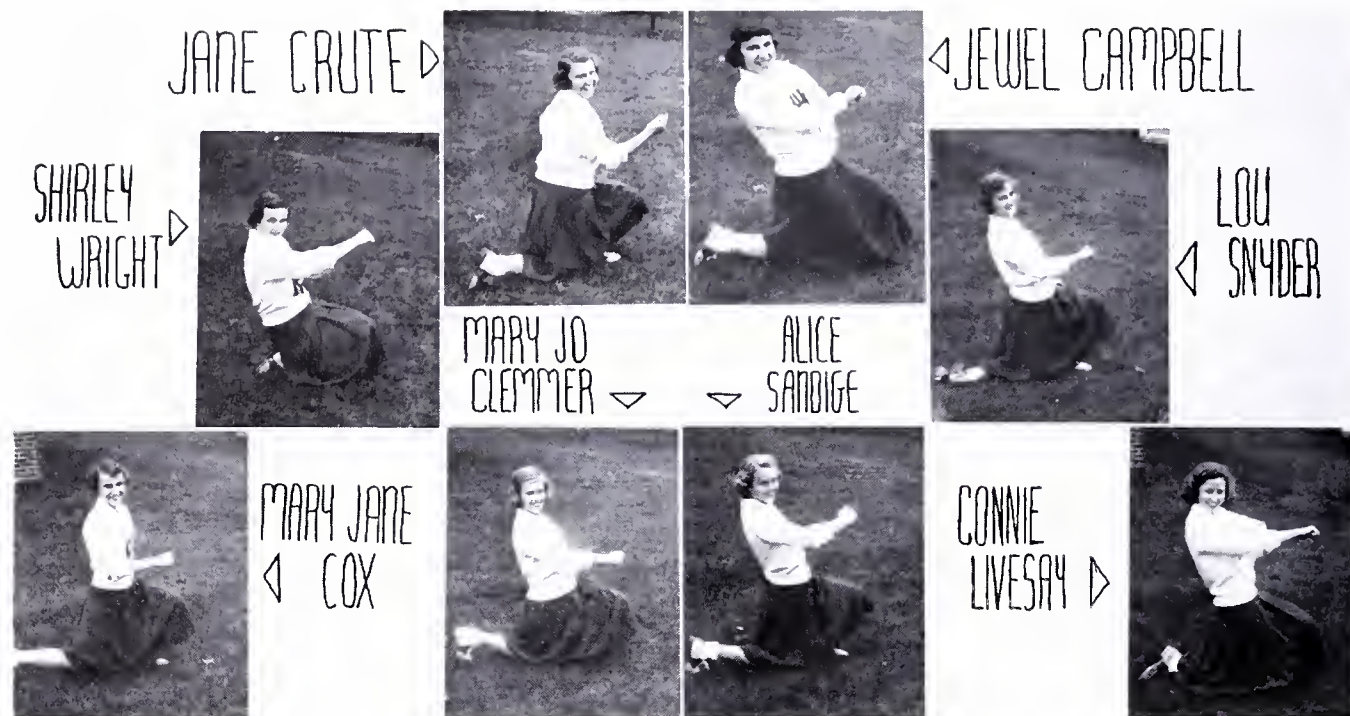

The officers who have done such a fine job of keeping this organization on its toes are:

MILLIE SHULL	<i>President</i>
MARY JANE COX	<i>Vice President</i>
BONNIE SUE COURSEY	<i>Secretary-Treasurer</i>
VIRGINIA WISE	<i>Reporter</i>
MISS MARIE HOUSE	<i>Faculty Sponsor</i>

Last Glimpses of Seniors

TOMMY MACE

The results of a splendid team belong in a large measure to our able, fast thinking, dependable Captain Mace. He was always at the right place at the right time, and his brilliant backboard work baffled many teams. We will miss Tommy very much next year, for he has the fighting spirit of a man who never says die. Good luck, Captain Mace.

GLENN CLARK

We were not surprised when Glenn made his letter this year for he was a great asset to the team. He always put all he had in the game and wore his opponents out trying to keep up with him. Time after time he would evade his man and slip in tight places to help the team work the ball toward the baskets. We sincerely hope that his future will be successful.

THOMAS COOK

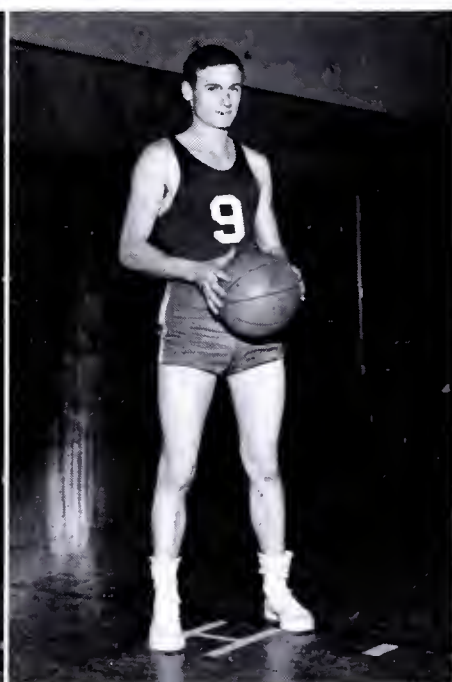

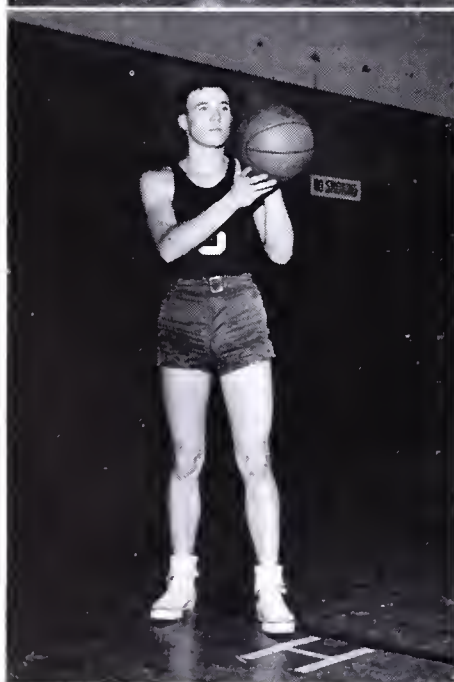

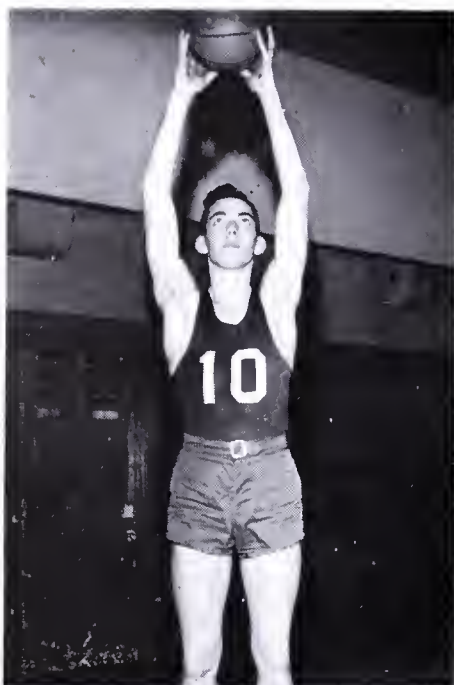

Tommy gave us all a surprise this year in his improved basketball ability. He soon turned into a hard grinding player, one whom the team could always depend on at a tough moment. He caused many an opponent constant worry by his persistent playing. Tommy will not be around when practice starts next year, so good luck, Tommy.

MACK WILSON

Without Mack's help at guard, our opponents would have scored many more points. The brilliant work at breaking up shots and always guarding the basket made him an outstanding player. We are sorry to say that Wilson will not be with us next year. Good luck, Mack.

GEORGE COOK

George was one of the main stars of the team and a hard, clean fighter. He was always on the alert breaking up the opponents passes and dribbles. He had that shooting eye, that never ending endurance which carried the team on many times when defeat was staring them in the eye. We are sorry that George will not be with us next year, but we wish him luck.

Varsity Seniors of 1951-52 Squad

MILDRED SHULL

"Millie" has played Varsity basketball for 2 years and she holds the position as center forward. She is an accurate shooter and hard to beat for spirit and energy.

SARA CLATTERBAUGH

Sarah has played Varsity ball for four years and has held the position as center guard and will probably hold that same position next year. She is one of the best guards Wilson has ever had. She has unlimited power and has been instrumental in keeping Wilson's opponents' scores so low.

BETTY BUCHANAN

Betty is a newcomer to Wilson but a veteran player. She handles the position of left forward with determination and can always be counted on to hand in a brilliant performance.

JOYCE MACKEY

Joyce has played Varsity ball for two years. Right guard is her regular position where she is fast and always ready for action.

JOYCE HARTMAN

Joyce has become a member of the Varsity for the first time this year but has done a fine job at left guard. She is tall and plays a rugged game of ball making it doubly hard for her opponent to hit the mark.

EDITH McCRAY

"Edie" played JV ball her Freshman year and has been a regular on the Varsity now for three years. The position of right forward is ably filled when Edie is on the floor as she is accurate and plays with the spirit to win. She comes from a long line of basketball players and lives up to the name made by those before her.

1951 Girls Net Squad News

The girls net teams engaged in encounters with only a few schools as tennis is a sport we feel is very much neglected in the near-by high schools. The schools we met in matches were Waynesboro High School, Fairfax Junior College and St. Anne's School from Charlottesville.

Interest in tennis is growing at Wilson and we hope to have a more complete schedule of matches this year. Miss Monahan, coach of last year's team, is no longer teaching so a new sponsor will have to be chosen before spring practices begin.

Miss Lucy Coyner is again coaching the 1952 tennis team which has six matches scheduled.

A Dream of Fantasy

You have had a dream or desire to do something great in your lifetime, I'm sure. Well, this is the story of such a desire as it slowly gains maturity and is later carried out by a man we shall call Professor Dennings.

The Professor is a mineralogist from Yale University. Working directly with him were Electronic Technician, William Johnston; Radiomen, Thomas McGeis and Walter Adams; and Engineer, Robert Winters.

About the year 1951, when the Professor was forty-eight years old, he read a book which inspired him to build a space ship. But before we go on, let the right-hand man of the Professor, who will tell his story introduce himself.

Robert Winter, Engineer, that's me; a man who expected to be only an average citizen and go through life like thousands of other people every year. But as you will see, I did not do so, for on February 19, 1951, I came in contact with a Professor named Harold Dennings. The Professor had drawn plans for a Supersonic Space Ship and at the time wanted me to head construction on this fantastic project. As time went on, I gained confidence in the Professor and together we watched the giant structure, now called EX-1-D, take a definite shape. It stood on four fins which descended fourteen feet below the hull and extended two hundred feet up the side, gradually decreasing in size and apparently disappearing into the sides of the ship. Above this was the nose which reached a peak of three hundred twelve feet. The EX-1-D was designed to reduce wind resistance, being circular in shape and having a diameter of seventy-six feet at its widest point. The cock-pit was located sixty feet below the nose, and around it were small port-hole-like windows for brief observation.

Power was supplied by eleven jet type engines, designed to split atoms of liquid oxygen and alcohol and develop a two hundred twelve thousand pound thrust each.

The interior of the ship was very complete; having a large television screen to view all directions before and after take-off, a short-wave radio, space suits and a very complex panel of instruments which enclosed five hammock-like beds for the crew. There was enough food, water, and oxygen for five men to live two hundred forty days; and enough fuel for one hundred and sixty hours of steady blasting of the rocket's engines.

On June 13, 1958, the ship was completed and said to be ready for flight. This I could not believe; "A thing like that fly, its impossible." Yes, I said that, but three months later, I, along with the Professor, Electronics Technician, William Johnston; and Radiomen, Thomas McGeis and Walter Adams, climbed the long ladder leading to the cock-pit of the Professor's dream ship which we were scheduled to test at 0800. (8:00 A. M.) About 0730 (7:30 A. M.) the generators of the EX-1-D were started because at 0800 they had to be generating enough power to start the giant engines that would carry the ship thought flight. Twenty minutes later, after the automatic controls had been set, everyone took his place in the comfortable hammock and waited; waited for an unknown experience that was now only five minutes away.

As I lay in my hammock, knowing the automatic controls would carry the ship two hundred miles above the earth and start it circling our planet, I began to be afraid and to wonder. Thoughts like; what will happen when two million volts of electricity are released from the generators, to start a chain reaction of

the rocket fuel, to give life to the eleven power plants of the EX-I-D, raced through my mind.

With the exception of the counter's (the person who counts off seconds before take-off) monotone voice over the public address system, and the steady hum of the generators, all was quiet. With less than one minute left I became very scared. In the palms of my hands and on my forehead there were beads of cold sweat. Four seconds, three, two, one, then with a deafening sound like the crack of lightning, the engines came to life. Like the slow ride on an elevator, the structure I swore would not fly, began to rise. Faster and faster it went until my eyes felt as though they would be pulled far back into my head. My body was being driven deep into the soft rubber bed where I lay, unable to move. The fingers and legs of my stiffened body were numb; then when I thought I could stand this agony no longer, it stopped. I struggled to my feet and along with Thomas McGeis rushed to a window and peered out with astonishment. Our ship was in the midst of a sight never before witnessed by human eyes. All around us was the ebony emptiness of space, and far below we saw a frightening spectacle. Our Earth now appearing not much larger than a huge wagon wheel or beach ball, was getting further and further away.

The Professor, already aware of this fate, had begun checking charts and data of the flight. Six hours later, about forty-three thousand miles from Earth, the Professor announced he had found the trouble. Previewing a little, the Professor went on to explain, "Due to the strong gravitational pull of the Earth it took us about five minutes to reach an altitude of two hundred miles; our automatic instruments turned the EX-I-D to the right and started it circling Earth in the same direction of its axis. With all engines blasting full, a speed of two miles a second was reached. Circling our planet with such speed soon broke the hold gravity had on the ship and sent us on an unknown course in space."

Being an engineer, I was aware that the EX-I-D was not ready for a space flight because the new type engines had not been tested for different air pressure and many other minor details, but most of all the reason was that if exposed to outer space or more than three hundred miles from Earth, the controls would become frozen and maneuver of the ship would be impossible.

Since the atmosphere of Earth had been left, our rockets were no longer needed because there was not sufficient gravity to slow the ship down. So, in order to save fuel, the engines were shut off.

For three months we drifted further and further from our home planet, unable to set a definite course. The crew relied on God and Faith to get them home but every instant they were watching the instruments, looking for a change that would indicate a possible trip back to their home land.

On the eleventh day of the fourth month, the faithful crew was blessed because the ship's instruments showed a slight but definite turn and later, after completing a check, it was found that we were undoubtedly traveling in a giant spiral circle back to Earth. This long awaited change was brought on by an uncharted comet, who's instant radiation and magnetic attraction for the on-rushing ship turned it enough to start us on a possible trip home.

For months, we circled our planet, until the hope of ever getting home alive was abolished. We only had a forty-six day supply of oxygen left and were still several million miles from Earth.

About a month later, the moon of our planet came into view and what a sight it was. To us it seemed much larger than it did on Earth because we were so much closer to it, and on the surface we could detect the jagged mountain

ridges and the table-top smooth plains; yes, it was all there, even the deep amber of a harvest moon as seen from Earth. The thought of never returning to Earth again was forgotten and in its place there was a new urge of determination.

With only fourteen days left, there seemed to be little or no hope of getting back, but with one last attempt to get home, or live as long as possible, a cut in oxygen and cabin pressure was made; which extended the oxygen supply twenty-one hours.

Due to the cut in oxygen, there was little activity in the cabin until the instruments showed that the circle in which we had been traveling was growing smaller. Everyone was tense for a landing that was not yet certain.

The Professor again began to calculate and with approximately four hours left, he gave instructions for a landing. I was told to start the generators and as soon as possible set the automatic controls to release all available power and start the engines. But there was one thing that had been over-looked during the excitement of the flight, the batteries. Was there power enough left in them to stimulate the huge generators? I threw the switch, and with every muscle tense, I waited. Then my waiting was rewarded with the familiar whine of the generators as they slowly began to turn.

I received word over the communication radio that the controls were no longer locked and that in fifteen minutes, the nose of the ship would be brought up to prepare for a tail-first landing, using full rocket power for braking the ship.

Again I heard the radio blare out with instructions from the Professor, instructing me to return to the cabin. I did so and along with the other members of the crew, took my place in the hammocks and waited as before. Being exhausted from the activity in the abnormal cabin pressure and insufficient supply of oxygen, there was little or no movement of the crew. A change of direction was felt; then a lunge Earthward. A red light on the large instrument panel flashed and with a loud roar the engines came to life. As I felt the EX-I-D slowing down, within me there was a new feeling of anxiety; but this feeling was abolished when the Professor shouted, "We're going to crash!" and without further warning, the bone shaking crash was felt. Apparently not until several hours later did I regain consciousness and stumble from the overturned ship. Momentarily stunned by the dazzling sunlight I could not see, but as my vision cleared I saw hundreds of people standing back, evidently afraid of the once airborne structure that lay in a mass of wreckage behind me. I returned through the shambled wreckage in hopes of finding my four companions. I found them unhurt, thanks to the thick rubber padding of our hammocks and after we convinced the wide-eyed people outside that we were human beings and not invaders from another planet, we were allowed to leave the ruins of the EX-I-D and go home leaving only the memories of "One Man's Dream of Fantasy."

Unfair and Colder

We wonder where the summer's gone ;

She was here a while ago ;

The grass was green upon the lawn

But now it's full of snow.

The birds were chirping in the trees ;

The kids were in the pool ;

The birds went south before the freeze—

We kids get sent to school.

ENGLISH III 4TH PERIOD

Calendar in Color

Spring comes in pastel green

And pink all fresh with dew,

When everything is bright and clean,

And how the sky is blue !

The summertime of green and gold

Comes in with flowers new ;

The thunder clouds stand out so bold

And white against the blue.

Red and yellow leaves in fall

Make trees of every hue,

Trees that stand so bright and tall,

And reach towards the blue.

In winter, where do colors go ?

Where are the flowers that grew ?

The trees stand brown against the snow,

But still the sky is blue.

ENGLISH III 5TH PERIOD

Summer Nocturne

Introducing all the splendors
Of a perfect summer night,
Are the fireflies in the meadows
Sprinkling darkness with their light.

Sounds are creaking by the creek ;
Frogs are croaking by the mill pond ;
Tree toads in the dogwood squeak.

How much fun it is to listen
To these creatures out of sight
As we breathe the fleeting fragrance
Of the lilacs in the night !

Dogs are howling in the distance
As the moon comes o'er the hill,
And in answer from the forest
Calls the plaintive whippoorwill.

Darkness is the time for dreaming
As we look into the night
At the stars so far above us,
Sprinkling heavens with their light.

ENGLISH III, PERIOD 1

Trees

"Trees can be seen throughout this world."
The squirrel is proud to say,
"Up in the hollow trunk I curl
To take a nap each day."

The chipmunk scampers in and out
And around his big, tall home.
For if the tree was not about,
He'd have to roam and roam.

The fox's home is under the tree,
Way down deep in the ground,
And if his enemy he does see
He does not make a sound.

The little bird does build her nest,
Away up in the leaves,
And with her babies she does rest
While everything she sees.

Trees of many shapes and sizes
Aren't seen at the County Fair,
But I'm sure they'd win the prizes
If they could be taken there.

J. LOU DEDRICK

My Life Compared to That of a Negro Slave

Have you ever thought what your freedom, your home, and your future really mean to you? Living in a free country, having democracy we think very little about these things. Our home, our freedom—yes, even our future is taken for granted. Using myself as an example I invite all of you to go through the average day with me, and compare my home, my freedom, and my future with that of a negro slave in the nineteenth century.

I get up around seven o'clock and do what little work there is to be done, and eat breakfast. After eating or sometimes before, I turn on the radio and listen to—well I listen to anything.

The bus finally comes, I get on, and meet my buddies then talk over the day before's happenings. We have our joke sessions, and our disagreements but they are fun and we enjoy them.

When I get to school I have a little time before reporting to class so I say "hello" to a few of my friends. Then the bell rings, and I walk slowly to class, getting there as late as I can without being too late. I creep slowly into my room and flop unconscientiously into my nearby desk. I know that the welcoming sound of the dismissal bell is six long hours away so I go to class, and as usual make life as miserable as possible for my teachers, that is with the exception of my first period teacher, who makes life miserable for me.

Well the first period class drags by, the second, and so on until comes my fifth period class which is band. I hurry to band class, get my instrument, and start to play or make a noise as some would call it, then swish, almost before I get started, ring goes the bell and my best class is gone. I know the six long hours have passed and that tomorrow will be the same and so on for a hundred and eighty days out of a year.

I go home, and if I am lucky it will be raining and I can lay around the house with nothing to do except eat and sleep, but as usual I am not lucky for the sun is shining bright and there is always work to be done when the weather is pretty. I think I work very hard but of course I do not and when I complain, usually it is not because of the work but just because I want something to say. You have just heard my freedom; freedom to complain; freedom to talk, and freedom to do anything that is not unlawful.

Now let's compare my freedom to that of a negro slave. In the year 1861 the free states declared war on the slave-holding states to overcome slavery. Four years later this war came to a close, the northern or free states winning, thus giving all slaves their freedom.

My story takes place a few weeks after the close of the war. (May 26, 1865) The date—well let's say around June 20, 1865.

It is midafternoon and the sun is shining bright. As you walk lazily down a narrow street of a northern town you see a large crowd of people encircling a black looking figure. Becoming curious you walk toward the small circle, and as you come closer the sound of a negro's voice edges its way through busy noise of this prosperous little town. You have now reached the circle and are listening to the aged looking figure inside, who is telling the story of his life as a slave on a plantation not far from the city of Richmond in Virginia. You know that Virginia is a southern state and that the state you are now in is more than a thousand miles north of it. Then you start to wonder; wonder about his real

life activities. You wonder what he is doing in a northern state, and how he got there. As his life story progresses you are surprised to find that he was a run-away slave, a fugitive from his master.

You ask him what made him run away, and he replies in a tired tone of voice; it is a long sad story. It all started when I was about sixteen years old on my master's plantation near Richmond. I was told to take a team of mules and go into some nearby woods to cut some trees for firewood. The mules were young and new to the hard work of the plantation life and acted very strangely toward it. As the day went on the mules grew more and more restless and when I was about ready to return to the plantation with the load of wood a bee stung one of the mules and started them running toward a nearby oak tree; before I could stop them one of the wheels was ripped from the wagon. Knowing the fate that had befallen me I became panicky and ran into the woods where I spent the following night. When morning came I returned to the plantation and much to my surprise the mules and the broken wagon had gotten there ahead of me. When I got closer I saw my master coming toward me with a whip in his hand. I again became panicky and started to run but stopped after hearing the harsh cry of my master's voice.

As he walked cautiously toward me I could see in his eyes the hate and madness that was building up there and when he told me to remove my shirt, I knew I was going to get a beating for something I could not prevent. "My master did beat me", and as he speaks he shows the circling crowd the scars of this severe whipping he had gotten many years ago.

After this the only thing that stuck in my mind was run away, leave this devil.

About ten years ago while working in the cotton field of my plantation home the opportunity for my escape came. A great thunder storm was coming up in the east and when it started to rain everyone, including my overseer ran for cover to keep from getting wet. I did not go with everyone else but went in the opposite direction toward the great Blue Ridge Mountains far to the north. Day after day I walked until exhausted. I fell by the trail on which I had been traveling. I do not know how long I lay there, but when I awoke the sun was shining bright and I was in the care of a white man and his boy, who lived in the peaceful surroundings of a large lake and a slow flowing river. When I was strong enough to travel I was given a raft and some food, then set free. For many days I drifted slowly down the river until the water became so rough that my raft was dashed against some rocks and torn apart. I was on foot once more and had been traveling for about two months, living on what food I could find.

As time went on, I finally reached the free states and spent some time in many of them. About six months ago I was returned to my master by a fortune seeker who collected the reward for my return, but before my master could punish me the war was won and I was set free. Since that time I have been wandering here and there trying to find work but no one will have a free negro in their presence so I am without a home or a direct future.

To those of you who are interested in my story, I wish to ask you if you have a place in your home for a free negro slave who will work for his room and board. Will you give me a place in your home?

Last Will and Testimony of the Class of 1952

The following Seniors of Wilson Memorial High School bequeath to those mentioned the precious personal gifts and attributes listed below:

I, Hilda Alexander, will my love for Mt. Sidney boys to Barbara Massey. She is supposed to hold on to them very tight.

I, Paul Almarode, will my seat in Choral class to any boy who can sing tenor or bass.

I, Pauline Almarode, will my shortness to Mae Fleming, my cousin.

I, John Ambler, will my nice quiet bus number 93 to Sherwin Burtner. The rowdy ones will be gone next year.

I, Peggy Anderson, will my love for Wilson to my sister, Phyllis.

I, Wallace Archart, would like to leave my seat in Government class to Nelson Grove.

I, Martha Archart, leave my seat on bus No. 57 to Shirley Bosserman.

I, Mary Archart, will my ability to be of help to bus drivers to Genoah Ratliff.

I, Sarah Archart, am willing to part with my brains and leave them to John Lam who might need them next year.

I, Gary Armentrout, leave my green and white band uniform to anyone who can play as well as I.

I, Betty Ann Arthur, will my constant worries over Davis and Charles to any Junior girl who thinks she is good enough to handle them.

I, Carolyn Ashby, will my movable desk in Government to anyone WHO CAN EVER FIND IT.

I, Betty Baber, will my good typewriter to my sister, Charlotte.

I, Mary Alice Back, will to Betty Graham my love for dark haired boys.

I, Betty Bashlor, would like to will my good luck in having wonderful teachers to whomever needs it.

My dear Mother
I received your letter of the 11th and was
glad to hear from you. I am well and
hope this finds you the same. I have
not much news to write at present.
The weather here is very warm now.
I have been out for a walk every day.
I am sure you will be glad to hear
from me. I will write again soon.
Love
Your affectionate son
John Smith
P.S. I have not time to write
more at present. I will write again
soon.
